OBJECTIVE

Aspiring Data Analyst with a strong foundation in SQL, Python, and data visualization. Skilled in extracting insights from structured datasets, building interactive dashboards, and translating raw data into effective business decisions. Seeking a Data Analyst internship to apply analytical and technical skills to real-world problems.

EDUCATION

B.Tech in Computer Technology

2024 - 2028

Yeshwantrao Chavan College of Engineering (YCCE), Nagpur

Multidisciplinary Minor: Data Science | CGPA: 8.4 (II Year)

SKILLS

Programming	Python, SQL, C++
Data Analysis	Pandas, NumPy, Matplotlib
Visualization	Excel, Power BI
Tools	PostgreSQL, GitHub, VS Code
Soft Skills	Communication, Leadership, Public Speaking

PROJECTS

Netflix Data Analysis – SQL [GitHub](#)

Analyzed a real-world Netflix dataset by writing some SQL queries to answer business-driven questions covering content trends, genre distribution, ratings, and country-wise content analysis. Applied aggregate functions, sub-queries, window functions, and CASE statements to extract useful insights.

HR Analysis Dashboard – Power BI [GitHub](#)

Built an interactive HR analytics dashboard tracking employee attrition across Human Resources, R&D, and Sales departments, covering 1.4K+ employee records. Designed KPI cards (attrition rate, average age, average salary, average tenure) and visualized attrition trends by education, age group, salary slab, years at company, job role, and gender to surface key drivers of workforce attrition for HR decision-making.

LEADERSHIP

- **Literary Head – ISTE Student Chapter, YCCE**
Organizing literary activities, coordinating student engagement, and contributing to the planning of technical and academic events.
- **Event Organizer – College Activities**
Actively involved in organizing intercollege events, workshops, and student engagement programs.

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple debate competitions and Model United Nations conferences, strengthening communication and public speaking skills.
- Keyboard player with 8+ years of musical experience and active member of the college music community.
- Interested in space science technology and research-oriented learning.
